

CARRIER & PARTNER OVERVIEW

NLDC's data centers together form the largest interconnectivity hub in the Netherlands. From our data centers you can quickly and easily benefit from the services of dozens of carriers. We ensure quick implementation and enable you to save on costs. In this way we support your business continuity and enable you to face the future with confidence.

We offer you freedom of choice: you decide which network suits you best. This overview is constantly expanded with new connectivity providers, so you can always use the carrier of your preference. Is the carrier of your choice not listed here or do you have other questions? Please contact us.

NLDC's Metro Connect is connected to Nikhef and KPN DC2. You can easily connect with the providers and carriers that are represented there.

Fiber Carrier

21 February 2019

| | Connection | Amsterdam 1 (Oude Meer) | Amsterdam 2 (Aalsmeer) | Amsterdam 3 (Almere) | Rotterdam | Eindhoven | Groningen |
